Leif Catches the Wind
A Mechanical Engineering Story
Written by the Engineering is Elementary Team
Illustrated by Jeannette Martin
Museum of Science
Hi Leif,

Here I am in my new house. 😊 and ☹️. I feel like I’m really far away from Copenhagen.

Mom and Dad are still unpacking. They let me set up my weather station first thing! Then we set up the computer so I could email you. Remember, you promised to send me vejr information—weather information—every day. I’ll send you a report from here, too. Then I’ll get my weather website started!

I miss you lots and lots!
Dana

P.S. This place has a fish pond. Now I know you’ll come visit.
WHAT DO YOU THINK?
